

NFG 309

UPRIGHT FREEZER

NFG 309 is used to display frozen items of food. The frost-free freezer defrosts automatically at regular intervals, thus preventing stored items from being covered in frost or sticking to each other. A heated door ensures that the glass is kept free of condensation and secures visibility. NFG 309 can stand alone or with advantage be placed side-by-side with the identically designed upright refrigerator FKG 371.

ISO 9001, 14001 & OHSAS 18001 CERTIFIED
