### Short Description

The SD 826 BE is a 2-door display refrigerator, with 788 net liters of cooling space. Comes with 8 black, heavy-duty wire shelves with wires that ensure that all types of glasses, cans and bottles are stable on the shelves. The cabinet has 4 heavy-duty wheels, 2 of which have brakes, so it is always possible to move it, even when it is full.

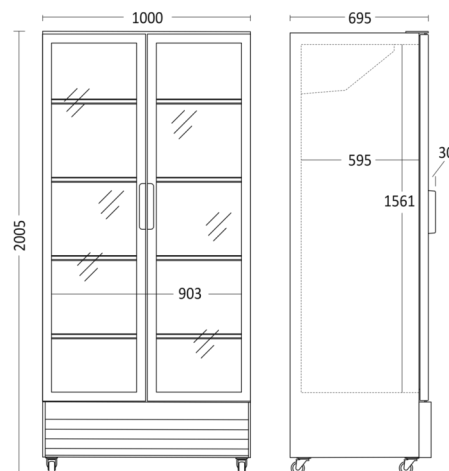

The cabinet has a right hinged door with lock, so it is possible to lock the cabinet. The door closes automatically which always minimizes temperature rises. 2 vertical energy-saving LED lights in the front provide a good light and represent the goods nicely.

The cabinet has Air Circulation System, which ensures perfectly ventilated cooling throughout the cabinet. The SD 826 BE is electronically controlled with an external digital display, so it is easy to see and adjust the temperature in the cabinet.
